## Incisive Analysis. Premium Content. Superior Functionality.

The Thomson ONE Banker - Analytics Module is the most comprehensive research and analytics tool available—delivering unparalleled breadth and depth of global company information. Through an intuitive interface, the Analytics Module combines intelligent navigation and sophisticated functionality to make your job easier. Access company and market information with precision, depth and ease when every second counts.

## Rich Content

The Thomson ONE Banker - Analytics Module provides the resources you need for a complete and accurate picture of any target company or market. After you have chosen a company, you can conduct detailed quantitative analysis with the help of over 200 pre-built reports and charts. Choose from the following reporting options spanning more than 20 years of global market activity, including:

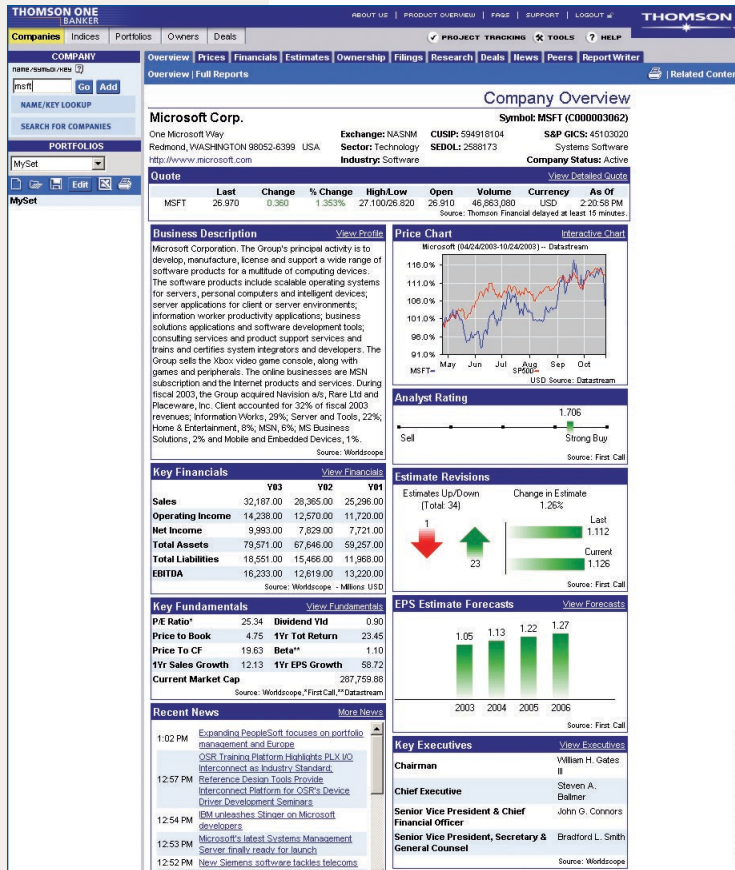

- Overview
- Company Financials
- Prices
- Peer/Comparable Reports
- Earnings Estimates
- Company Filings and Research
- Stock Exchange and Index Data
- Global News

## Sophisticated Functionality

The Thomson ONE Banker - Analytics Module complements your workflow—placing at your fingertips relevant information, compatible with your current system. Use the Analytics Module to:

- **Quickly identify comparables and build portfolios** – Save time with user-friendly Advanced Searching options or choose from a library of pre-built screens covering 75,000 global equities
- **Search simultaneously across all databases** – Canvass over 17,000 items and choose from 45 pre-built searches on indices, industries, regions and more
- **Integrate data directly into Microsoft® Excel** – Expedite traditional reporting with the Thomson Excel Add-in for detailed analysis
- **View High / Low / Close, Indexed, and Relative Strength charts** – Compare a target company against its peers, indexes and custom composites
- **Customize time frames and data displays** – Secure the exact data you need to make intelligent and informed decisions

*continued on next page*

- **Integrate Data within Excel** – Dynamic reports (pre-built and custom) bring data together from all analytics content sets. Minimize manual effort building Comp Models, Valuation Reports, and Tear Sheets with timely data
- **Project Tracking** – Organize research data with assigned project codes and easily view user information
- **Usage Reports** – Keep track of usage accrued by other members of your firm

### Flexible Access

Log on to Thomson ONE Banker 24 hours a day, from any desktop at any time. All you need is a standard Web browser (Internet Explorer 5.5 or higher) to get started.

### About Thomson ONE Banker
