

Thomson Research

Thomson Research integrates the critical information from industry-leading sources including:

- **Disclosure Public Corporate Filings** – The largest collection of scanned regulatory filings with over 2 million images going back 10 years, consisting of annual reports, prospectuses, interims, and circulars.
- **Investext** – The world's most comprehensive collection of aftermarket PDF brokerage research and related information.
- **Market Research** – The most in-depth comprehensive online collection of highly regarded market and industry information and analysis available today. Nearly 140 market research publishers offer expert insight into hundreds of market areas worldwide.
- **Morning Meeting Notes** – A comprehensive source of market-moving investment commentaries from nine major investment banks.
- **Extel Cards** – An as-reported premier source for company information, encompassing fundamental financials for 24,000 quoted companies from 70 countries worldwide, with 15 years of annual financial data from the balance sheet profit/loss and cash flow statements.
- **Worldscope Global Financials** – Standardized financials, product and geographic segment information, share and per share data, performance and operating ratios, and more for nearly 27,000 active global companies from 50 countries, representing approximately 96% of the world's market capitalization.
- **Disclosure SEC Company Database** – A templated financial database containing financial, statistical and market information for more than 12,000 companies that actively trade on major U.S. exchange and the OTC market.
- **I/B/E/S Earnings** – Current and historical I/B/E/S summary (consensus) and detail estimates for more than 21,000 companies in 60 countries worldwide. More than 850 firms contribute data to I/B/E/S, from the largest global houses to regional and local brokers.

The Information Edge

Thomson Research is a powerful Web-based tool that combines the **most comprehensive collections** of company and **industry research, global regulatory filings and company fundamentals data**, with advanced functionality—enabling you to make confident business decisions backed by authoritative intelligence and incisive analysis.

Comprehensive Content:

Thomson Research works with highly respected analysts worldwide to provide the critical insights you need to make effective business decisions and gain a **competitive advantage** in the global market. Thomson Research brings you the most data, from the most contributors—giving you access to research that literally can't be found anywhere else. Plus, with its unique modular design, you can tailor your information subscription to meet your needs and budget.

Sophisticated Functionality

Thomson Research contains advanced features that allow you to **pinpoint the information you need** quickly and simply.

- **Search a full spectrum of company and financial information—simultaneously screen every content set**, then view a content profile with one-click access to all available information. Advanced

indexing functionality means you get relevant results from just a single ticker symbol or company name search.

- **Target your results with powerful, precise searching—use data-specific search parameters** to refine your search and return only the information you need. Within "Research" download exactly the right document by previewing Tables of Contents or performing a KWIC (key words in context) search.
- **Put information to immediate use. Access reports as they appear** in the analyst's original format.
- **Download spreadsheet-ready financials** from company fundamental data and original EDGAR documents.
- **Access compressed regulatory filings faster** (by a 4 to 1 ratio) using Compressed Image software, in addition to text search capability.
- **Manage your workflow with flexible, customizable control—set email alerts** to notify you when new filings or research becomes available. Load and save searches for regulatory filings, research, and news. Assign project codes at the beginning of each session to track usage.
- **Maximize your resources—quickly and easily add users, set permissions view usage reports or set and lock preferences** on an individual user, group or firm-wide basis, using new **administrative control** features.

continued on next page

- **Tearsheets** – This database of presentation-ready, one-page summaries provides a quick snapshot of a company's financial standing, including annual and quarterly financial data, salaries, earnings estimates, recent filings and more from Worldscope Global Financials.
- **ICC Private Company Data** – Provided by ICC Information, Ltd., this database provides critical background information on reports and source documents for 1.3 million live and 1.8 million dissolved UK companies.
- **Articles online** – Provided by Responsive Database Services (RDS). Instant access to millions of full-text articles taken from more than 1,300 international publications and 20,000 tables.
- **Industry Insider** – A one-of-a-kind compilation of the important data and research produced by more than 200 trade associations that draw upon the key players in their respective markets for their insight.
